Supporting Prostate Cancer Research through Fishing Competition

Supporting Local Charities

Social Value Case Study

On 11th July, members of the IMR WR Alliance team came together at Float Fish Farm for a charity fishing competition, an event that combined friendly rivalry with a shared commitment to supporting a vital cause.

Danaher & Walsh were proud to play our part, contributing £500 in sponsorship towards the day. Colleagues from IMR WR Alliance joined forces on the day, enjoying some healthy competition while raising funds and awareness for Prostate Cancer Research (PCR).

Supporting Local Charities

At Danaher & Walsh, we recognise that our role in the community extends beyond engineering. By sponsoring events like this, we are proud to support our alliance partners and invest in causes that make a real difference to people's lives.

Together, we can create a positive impact, both in the communities where we work and in the wider fight against cancer
